Handwriting , spacing and punctuation	1	

Write your topic here (13 Marks)

Outlining	Exposition of Ideas	Sp. & Gram.	HW, Spacing & Punct.	Total
2	10	2	1	15

VI. READING COMPREHENSION (20 Marks)

Read the following passage, then answer the questions below:

Polar bears will be extinct by the end of the 21st century if the global warming continues. Temperatures are rising in the Arctic. It is the only place where polar bears are found. This change of nature is having a strong effect on the health and numbers of the world's population of polar bears.

During the winter, polar bears live and hunt on the sea ice. They travel for many kilometers to catch their main food, which is the seal. Through the ice, they can feel the movement of a seal. They sit close to a hole in the ice and wait for the seal to come up for air.

In summer, as the ice melt, some bears return to the shore, fasting until the colder weather and sea ice return. Others continue to hunt. They swim in the icy water until they reach floating sea ice where they can wait for a seal. Bears who have been fasting all summer weigh less and are weak. They have lost too much of their fat, which is needed to keep them warm and as a source of energy.

Global warming has increased the temperature in the Arctic so much that the warmer weather comes sooner each year and it lasts longer. It has been predicted that by the end of this century there will be no sea ice left. As the temperature continues to rise the cold winter will be much shorter.

A) Choose the correct answer from a, b, c and d : (4 X 2½ = 10)

23) The best title for the passage could be.....

- | | |
|-----------------------------|--|
| a. Polar Bears' Life | b. The 21 st Century summer |
| c. Temperature of Arctic | d. The Four Seasons |

- | | |
|-----------------|-----------------------|
| a. temperatures | b. seals |
| c. numbers | d. polar bears |

25) The main idea of the (4th) paragraph is

- | | |
|--|------------------------------|
| a The effects of global warming | b. The floating of sea ice |
| c. The movement of seals in the ice | d. The number of polar bears |

26) The underlined word **increased** in the (4th) paragraph means

- | | |
|----------------------|---------------|
| a. get colder | b. get fatter |
| c. get higher | d. get taller |

B) Answer the following questions : (4 X 2½ = 10)

27) Why are temperatures rising in the Arctic ?

Temperatures are rising in the Arctic because of the global warming .

28) Where do polar bears live ?

They live in the Arctic.

29) What is the main food of polar bears?

The seal is the main food of polar bears.

30) Why do some bears weigh less ?

Some bears weigh less because they fast all summer.
