Exposition of ideas, paragraphing and number of sentences	10	
Pre-writing techniques ( brainstorming, mind mapping , outlining )	2	
Spelling and structure	2	
Handwriting, spacing and punctuation.	1	
Total Mark	15	

## **II-Reading Comprehension ( 20 marks )**

### **B) Read the following passage then answer the questions below :**

Helicopters are very different from airplanes. They can do three things that airplanes can't do. First, helicopters can fly backward, where airplanes can't do. Helicopters can use their rotors to **hover** in the air (stay in one place) which is impossible for planes. Second , when airplanes move upward, **they** must also move forward, but helicopters can move straight up without moving ahead. Because helicopters can perform actions that airplanes cannot, they are used for different tasks. Since they can **take off** without moving forward, they don't need a runway for taking off. They are used in congested areas where there is no room for airplanes, or in isolated areas which don't have airports. Because they can hover, they are used on firefighting missions to drop water on fires. Helicopters are also used as air ambulance to airlift patients out of situations which are difficult to reach by ordinary ambulances. The police use helicopters to follow suspects on the ground or to search for cars on the ground. Of course, helicopters have military uses because of their design and capabilities.

### **A)- From a, b, c and d choose the correct answer: ( 4X2½ = 10 )**

23- The best title for the passage is:

a- **Helicopters**

b- The Impossible Mission

c- The Military Area

d- The Ambulance

24- The opposite of the underlined word "**take off**" in line 6 is:

a- go off

b- break down

c- **land**

d- look for

25- The underlined word "**hover**" in line 3 means:

a- **to fly over**

b-to follow

c- to search for

d- to drop

26- The underlined pronoun "**They**" in line 4 refers to:

a- **airplanes**

b- helicopters

c- rotors

d- things

### **B)-Answer the following questions : ( 4 X 2½ = 10 )**

27-How are helicopters used as ambulances?

**Helicopters are also used as air ambulance to airlift patients out of situations which are difficult to reach by ordinary ambulances.**

28-Where do airplanes land ?

**On the runway / in the airport .**

29-What is the main difference between helicopters and airplanes?

**Helicopters can fly upward and forward at the same time while airplanes can't.**

30-Why do helicopters have military uses?

**Because of their design and capabilities/ they can follow suspects on the ground / they can search for cars on the ground.**

**( Any reasonable answer is accepted )**

**End of the exam**
